Resource of the Week

Podcasts in Women+, Child Health, and RDS

[@WomensResearch](#): a podcast produced by the WHRI that explores the latest in women's health research in BC.

[Diabetes: From Beta Cells to Bicycles](#): diabetes researchers in BC discuss the many aspects of diabetes research and the exciting work being done in the province.

[GOSH](#): Gynecologic Oncology Sharing Hub, a podcast dedicated to creating an open space for real and evidence based discussions on gynecologic cancers.

[Women's Health Interrupted](#): This student-led podcast explores women's health across four overarching and multidisciplinary themes: general health and wellness, brain health, socio-cultural determinants of health as well as politics, policy and advocacy.

[Where You Are](#): Through real stories, expertise, and practical tips, this podcast helps families promote their mental health and wellness, navigating important topics to meet you where you are in your journey.

[Nice Genes!](#) A podcast released every other Tuesday that guides you through fascinating conversations about the what, the why, the how, and the 'huh?' of genomics.

[Her RoyalScience](#): A podcast created to feature individuals minoritised groups in STEM.

[SPARK: Conversations](#): From Children's Healthcare Canada, a solutions-focused podcast that connects the child and youth health community with system leaders who tackle wicked problems and discuss ideas to inform the development of innovative and integrated systems serving children and youth.

[Interior Voices](#): Aboriginal health and wellness podcast series that explores the intersection of health and culture in the workplace, our everyday lives and patient care.

[SSR Podcast: The Future Conceived](#): official podcast for the Society for the Study of Reproduction, featuring emerging scientists, new techniques, and investigators from around the world.
